

BT Obligatiuni

Description

BT Obligatiuni is an open-end investment fund for fixed income financial instruments. The open-end fund is a product that is addressed to our more conservative customers. Investments are made in such a way that the risks associated with them are as low as possible. Because of this, we propose fixed income financial instruments such as bonds, treasury bills, government bonds or deposits. BT Obligatiuni is authorized to invest according to the risk dispersion principle up to 100% of its asset under management in securities and other monetary instruments issued or guaranteed by Romanian public central authorities, dedicated to the preservation of capital and giving our customers the highest degree of safety we possibly can. It must be remembered that investment in fund units represents an opportunity for earnings as well as an assumed risk. Past gains do not represent a guarantee of future performance.

The funds managed by BT Asset Management are targeted towards both individual customers and companies, Romanian and foreign, who do not have sufficient information to make a diversified portfolio that can reduce the risks present in operating on capital markets. The advantages of investing in our funds are the quality services we offer to our clients and our diversified portfolio that reduces the risks present in operating on capital markets and maximizes profits.

Advantages:

- Offers stability because of the low risk involved.
- Is optimum for conditions of high volatility of capital markets.
- Conserves capital and produces superior gains when compared to usual bank interest.

Costs:

- Purchasing fee: 0%
- Redemption fee: 0%
- *Management fee: 0.05%/month - this fee is included in the value of the fund unit*

The open end investment fund BT Obligatiuni is registered under Nr.Reg.CNVM. CSC06FDIR / 120051 / 10.06.2008, authorization CNVM Decision Nr.1235/10.06.2008, with the code ISIN ROFDIN000127.

BT Obligatiuni is registered at US Internal Revenue Service (IRS) with the following Global Intermediary Identification Number (GIIN): **2UZSA2.00004.SF.642**

Risk profile

Because operating on the capital market is an important step on the way to becoming an entrepreneur, it is very important to know the usefulness of this product and the full characteristics of the open-end fund BT Obligatiuni. Towards this end, we need to understand the opportunity of investing in products that contain fixed income financial instruments, especially in times of recession and economic uncertainty. In these conditions, bank interest is high and investing in stocks becomes risky. BT Obligatiuni can allow you to take advantage of the opportunities presented by this disequilibrium in the market without exposing you to unpredictable risks.

Safety is the main characteristic of BT Obligatiuni, as the fund is designed to protect investors from the risks present on the capital market. It is a product optimal for saving especially if customers make successive purchases that are also constant over time.
